

This is to certify that
Node4

Millenium Way, Pride Park, Derby, DE24 8HZ, United Kingdom

Has been assessed
by Richard Mason for IT Governance Ltd
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Internal systems for Node4 Limited including firewall, routers, end point devices including PC's and laptops located at all Node4 offices.

Certification date: July 18th, 2017

Recommended re-assessment date: **July 17th, 2018**

Certificate no.: 9020022976594472

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
